EDUCATION

McGill University

Bachelor's Degree, Computer Science and Statistics

Montreal, QC

Sep 2021 – (Expected May 2026)

McGill University - Desautels Faculty of Management

Minor in Finance

Relevant Coursework: Machine Learning (Theory and Application), Reinforcement Learning, Stochastic Processes, Statistics, Probability, Corporate Finance

EXPERIENCE

Research Assistant

January 2025 – Present

AI Health Institute

Montreal, QC

- Developed a robust and rigorous evaluation framework for Large Language Model (LLM) performance in Medical and Clinical settings
- Implemented a framework to evaluate biases in medical diagnosis through adversarial feature attacks
- Published our first report evaluating 15 LLMs across 2 comprehensive medical datasets

Undergraduate Research Assistant

September 2024 – Present

McGill University

Montreal, QC

- Researched and developed AI agents for various applications under the supervision of Professor Maxime Cohen
- Collaborated with industry partners to develop AI agents that reduced task processing time from days to minutes, achieving 95% accuracy

Teaching Assistant – Math 262 (Intermediate Calculus)

May 2024 – June 2024

McGill University

Montreal, QC

- Conducted weekly tutorials to support students in understanding and mastering key multivariable calculus concepts

Undergraduate Research Assistant

May 2024 – December 2024

McGill University

Montreal, QC

- Collaborated on a university-funded research initiative, contributing to an industry project under faculty supervision
- Contributed to the development of a hybrid Retrieval-Augmented Generation (RAG) system
- Contributed to the creation and optimization of a knowledge structure framework (Ontology) for a domain-specific Large Language Model

Undergraduate Course Assistant

Sep 2023 – Dec 2023

McGill University

Montreal, QC

- Acted as an undergraduate course assistant for Math 240 (Discrete Structures) and Math 223 (Linear Algebra)
- Graded assignment problems within one week of their submission for classes with 500+ students, alongside other course assistants
- Provided students with detailed and personalized feedback for the solutions to help enhance their learning experience

VOLUNTEERING

Director of Insights

Feb 2023 – January 2025

PennyDrops National Team

Montreal, QC

- Collected, managed, and analyzed quantitative and qualitative data from PennyDrops' programs for impact reporting
- Analyzed current operations, conducted comprehensive market research, and delivered strategic recommendations that optimized curriculum by introducing new lessons and retiring outdated content
- Helped maintain PennyDrops Anywhere online platform
- Contributed to financial literacy education initiatives for underserved communities
